CONTENTS OF VOLUME 466

July 1993

AUSTIN Clare & WRAY Susan Extracellular pH signals affect rat vascular tone by rapid transduction into intracellular pH changes. 1

OGATA Nobukuni & TATEBAYASHI Hideharu Kinetic analysis of two types of Na^+ channels in rat dorsal root ganglia. 9

CRÉPEL V., KRNJEVIĆ K. & BEN-ARI Y. Sulphonylureas reduce the slowly inactivating D-type outward current in rat hippocampal neurons. 39

WATANABE Akira Polarity reversal of the optical rotation signals with change in direction of impulse conduction along the lobster nerve. 55

VAN LUNTEREN Erik, ELMSLIE Keith S. & JONES Stephen W. Effects of temperature on calcium current of bullfrog sympathetic neurons. 81

GINIATULLIN R.A., KHAZIPOV R.N. & VYSKOČIL F. A correlation between quantal content and decay time of endplate currents in frog muscles with intact cholinesterase. 95

GINIATULLIN R.A., KHAZIPOV R.N., ORANSKA T.I., NIKOLSKY E.E., VORONIN V.A. & VYSKOČIL F. The effect of non-quantal actylcholine release on quantal miniature currents at mouse diaphragm. 105

JANKOWSKA E., RIDDELL J.S. & MCCREA D.A. Primary afferent depolarization of myelinated fibres in the joint and interosseous nerves of the cat. 115

MICHALSKI A., WIMBORNE B.M. & HENRY G.H. The effect of reversible cooling of cat's primary visual cortex on the responses of area 21a neurons. 133

KNOX Barry E., KHORANA H. Gobind & NASI Enrico Light-induced currents in *Xenopus* oocytes expressing bovine rhodopsin. 157

ALLEN T.G.J. & BROWN D.A. M_2 muscarinic receptor-mediated inhibition of the Ca^{2+} current in rat magnocellular cholinergic basal forebrain neurones. 173

STEFFENS H. & SCHOMBURG E.D. Convergence in segmental reflex pathways from nociceptive and non-nociceptive afferents to α-motoneurones in the cat. 191

WELLNER Marie-Cécile & ISENBERG Gerrit Properties of stretch-activated channels in myocytes from the guinea-pig urinary bladder. 213

YAMADA T., ABE O., KOBAYASHI T. & SUGI H. Myofilament sliding per ATP molecule in rabbit muscle fibres studied using laser flash photolysis of caged ATP. 229

KALTHOF B., BECHEM M., FLOCKE K., POTT L. & SCHRAMM M. Kinetics of ATP-induced Ca^{2+} transients in cultured pig aortic smooth muscle cells depend on ATP concentration and stored Ca^{2+}. 245

ZHOU Zhengfeng & LIPSIUS Stephen L. Na^+–Ca^{2+} exchange current in latent pacemaker cells isolated from cat right atrium. 263

KURAHASHI Takashi & KANEKO Akimichi Gating properties of the cAMP-gated channel in toad olfactory receptor cells. 287

ADAMSON R.H. & MICHEL C.C. Pathways through the intercellular clefts of frog mesenteric capillaries. With an Appendix by K.H. PARKER, C.G. PHILLIPS & W. WANG. 303

DEMAUREX Nicolas, GRINSTEIN Sergio, JACONI Marisa, SCHLEGEL Werner, LEW Daniel P. & KRAUSE Karl-Heinz Proton currents in human granulocytes: regulation by membrane potential and intracellular pH. 329

BATES Susan E. & GURNEY Alison M. Ca^{2+}-dependent block and potentiation of L-type calcium current in guinea-pig ventricular myocytes. 345

HILAIRE Gérard, MORIN Didier, LAJARD Anne-Marie & MONTEAU Roger Changes in serotonin metabolism may elicit obstructive apnoea in the newborn rat. 367

CONIGLIO Lisa M., HARDWICK Jean C. & PARSONS Rodney L. Quantal transmitter release at snake twitch and tonic muscle fibres during prolonged nerve terminal depolarization. 383

CONIGLIO Lisa M., HENDRICKS Gregory M. & PARSONS Rodney L. Effects of lanthanum at snake twitch and tonic muscle fibre endplates. 405

RIBCHESTER Richard R. Co-existence and elimination of convergent motor nerve terminals in reinnervated and paralysed adult rat skeletal muscle. 421

PERRY R.J. & MCNAUGHTON P.A. The mechanism of ion transport by the Na^+–Ca^{2+}, K^+ exchange in rods isolated from the salamander retina. 443

DOERING A.E. & LEDERER W.J. The mechanism by which cytoplasmic protons inhibit the sodium–calcium exchanger in guinea-pig heart cells. 481

CANNON Stephen C. & COREY David P. Loss of Na^+ channel inactivation by anemone toxin (ATX II) mimics the myotonic state in hyperkalaemic periodic paralysis. 501

INGHILLERI M., BERARDELLI A., CRUCCU G. & MANFREDI M. Silent period evoked by transcranial stimulation of the human cortex and cervicomedullary junction. 521

EDMAN K.A.P., CAPUTO C. & LOU F. Depression of tetanic force induced by loaded shortening of frog muscle fibres. 535

CLARK J.F., KHUCHUA Z., KUZNETSOV A., SAKS V.A. & VENTURA-CLAPIER R. Compartmentation of creatine kinase isoenzymes in myometrium of gravid guinea-pig. 553

BARBOUR Boris, MAGNUS Chris, SZATKOWSKI Marek, GRAY Peter T.A. & ATTWELL David Changes in NAD(P)H fluorescence and membrane current produced by glutamate uptake into salamander Müller cells. 573

KARIM F. & AL-OBAIDI M. Modification of carotid chemoreceptor-induced changes in renal haemodynamics and function by carotid baroreflex in dogs. 599

WESTERBLAD Håkan & ALLEN David G. The influence of intracellular pH on contraction, relaxation and $[Ca^{2+}]_i$ in intact single fibres from mouse muscle. 611

KUO Chung-Chin & HESS Peter Ion permeation through the L-type Ca^{2+} channel in rat phaeochromocytoma cells: two sets of ion binding sites in the pore. 629

KUO Chung-Chin & HESS Peter Characterization of the high-affinity Ca^{2+} binding sites in the L-type Ca^{2+} channel pore in rat phaeochromocytoma cells. 657

KUO Chung-Chin & HESS Peter Block of the L-type Ca^{2+} channel pore by external and internal Mg^{2+} in rat phaeochromocytoma cells. 683

FURUKAWA Tetsushi, FAN Zheng, SAWANOBORI Tohru & HIRAOKA Masayasu Modification of adenosine 5′-triphosphate-sensitive K^+ channel by trypsin in guinea-pig ventricular myocytes. 707

NEDERGAARD S., FLATMAN J.A. & ENGBERG I. Nifedipine- and ω-conotoxin-sensitive Ca^{2+} conductances in guinea-pig substantia nigra pars compacta neurones. 727

HUGHES Bret A. & SEGAWA Yasunori cAMP-activated chloride currents in amphibian retinal pigment epithelial cells. 749
